OVERVIEW

Shee Atiká Federal, LLC (SHF) is an IT firm specializing in mission-focused cybersecurity services tailored for Department of Defense (DoD) and federal government customers. SHF delivers comprehensive solutions in Risk Management Framework (RMF), Assessment and Authorization (A&A), Information Security Continuous Monitoring (ICSM), incident response, Zero Trust implementation, and supply chain risk management. With a proven track record on large-scale, enterprise Information Technology (IT) modernization efforts, SHF designs, migrates, and secures complex systems across Amazon Web Services (AWS), Microsoft Azure, and on-premises environments. Backed by an agile, certified workforce and Defense Contract Audit Agency (DCAA)-compliant systems, SHF enables government leaders to accelerate digital transformation, achieve continuous compliance, and secure the nation's most sensitive data.

Our certified team, holding Certified Information Systems Security Professional (CISSP), Certified Information Security Manager (CISM), Certified Ethical Hacker (CEH), and Security+ credentials, secures both cloud and on-premises environments in alignment with DoD, National Institute of Standards and Technology (NIST), and Federal Information Security Modernization Act (FISMA) standards. Leveraging proven performance on large-scale DoD contracts, SHF provides dynamic, adaptive cybersecurity engineering, IT modernization, and operational support, ensuring the confidentiality, integrity, availability, and resilience of mission-critical systems and data.

SPECIALTIES

CYBER SECURITY & INFORMATION ASSURANCE

- Risk Management Framework (RMF) & Rapid Authorization to Operate (ATO) Acceleration
- Information Security Continuous Monitoring (ISCM) & Incident Response
- Zero Trust Architecture & Supply Chain Risk Management
- Vulnerability Management, Assured Compliance Assessment Solution (ACAS) Scanning, and Security Technical Implementation Guide (STIG) Implementation

CLOUD FINANCIAL OPERATIONS (FINOPS)

- Microsoft Azure Cost Optimization & Resource Consumption Analysis
- Cloud Budget Planning, Forecasting & Financial Governance
- Cost Allocation, Chargeback/Showback & Executive Reporting
- FinOps Strategies Enabling Secure, Efficient, and Scalable Cloud Operations

DEVSECOPS & SOFTWARE ENGINEERING

- Agile Software Development Lifecycle (SAFe, Scrum)
- Continuous Integration and Continuous Delivery (CI/CD) Pipeline Development & Software Factory Implementation
- Low-Code/No-Code Development & Application Programming Interface (API) Integration
- Containerization & Microservices Architecture

KEY DIFFERENTIATORS

ZERO-DISRUPTION OPERATIONS Emphasize our proven ability to execute seamless billing transitions and account management without risking existing licenses, configurations, or daily operations, serving as the new reseller of record transparently.

ADVANCED AI & MARKETPLACE ENABLEMENT Highlight our capability to establish self-service cloud marketplaces that give agencies on-demand access to cutting-edge tools, specifically Azure OpenAI and machine learning services, driving immediate mission innovation.

MULTI-CLOUD COST OPTIMIZATION Showcase our expertise in enabling transparent, centralized cost management and resource optimization across multiple FedRAMP-authorized CSPs (IaaS, PaaS, SaaS) to guarantee federal compliance and maximize ROI.

CONTRACT VEHICLES

- SBA 8(a)-certified subsidiary of an Alaska Native Corporation (ANC)
- GSA MAS (SIN 518210C and 54151S)
- ANC 8(a) SDB Direct Award (up to \$100M) for DoD

NAICS CODES

518210, 541511, 541512, 541513, 541519, 541330, 541380, 541611, 541614, 541618, 541690, 541714, 541720, 541990, 561110, 561210, 561320, 561499, 561990, 611430

FEATURED WORK

CYBER SECURITY SUPPORT | HI Cloud Acceleration and Transformation Support (HICATS) Cyber Security Support, Subcontractor (USAF end customer)

FA8771-22-F-0020 (TO) \$8M 03/23/2022 - 05/27/2027

Our program's Information System Security Managers and Officers ensure secure and compliant operations through continuous evaluation, documentation, and testing of system security controls to achieve and maintain an ATO. We conduct comprehensive cyber security testing, including static/dynamic code analysis, database scans, and application/system assessments, aligned with Defense Information Systems Agency Security Technical Implementation Guides and Open Web Application Security Project standards. Our ISCM strategy provides real-time threat awareness, enabling proactive risk management and sustained RMF compliance.

AZURE CLOUD SERVICES | Department of Health & Human Services, Prime Contractor

140D0425C0101, \$4.6M (Base) 09/30/2025 - 09/29/2026 (Base) | \$25M 09/30/2025 - 09/29/2030 (Base + 4 OY)

SHF delivers expert Azure cloud modernization and transition services to empower federal agencies in achieving scalable, cost-effective infrastructure. We ensure a seamless, zero-disruption billing and administrative transition while maintaining the integrity of existing tenant environments and integrations. By establishing centralized, self-service access to FedRAMP-authorized native technologies, including advanced AI and machine learning tools, we optimize resource utilization, strengthen security postures, and support rapid innovation. Our proven approach to cloud-smart adoption and cost management strictly aligns with federal mandates and the HHS Cloud Computing Strategy.
